

Transparent Data

Transparent Data Sp. z o.o. (LTD) is a technology company focusing on business information. We provide quick, reliable, and cost-effective data on each company and person doing business in Poland. Our flagship product is www.przeswietl.pl, but we provide various data related products and services, allowing our customers to get the best value out of it.

We are looking for:

- 1) A person who can support our international sales team. You will be responsible for finding, approaching and qualifying potential customers located outside of Poland. You should speak at least one of the following languages: English/Spanish/German (more = better)
- 2) A person with database experience and analytical skills. You will be responsible for analysing vast amount of business data. It could be a client order, but it could also be a data pattern exercise that we can utilize in a different ways. You should know basics of SQL (more = better) and be in love with spreadsheets.

We offer a steep learning curve thanks to some pretty experienced people. You will get a feeling of dynamic environment of small and fast moving company. You will get a lot of responsibilities, but also a lot of independence and chances to create your own solutions and future. A mentor (e.g. <http://pl.linkedin.com/in/ahajduk>) will guide you through your experience in terms of professional and personal development. Last but not least, you will learn about good and bad sides of entrepreneurship.

Send us your CV and short email why you would like to work with us. We will have short interview on Skype and then we decide whether we have a fit or not.

Any questions?
